OBJECTIVE

This document presents a professional resume for Katari Chakraveni, a dedicated B.Sc. Artificial Intelligence student with a strong academic background and hands-on experience in AI and data analytics. Seeking an opportunity to apply my skills in a professional environment and contribute to organisational growth while enhancing my technical expertise

WORK EXPERIENCE

Python Full Stack Developer Trainee (KRIFY PRIVATE SOLUTIONS Ltd) Dec 2025-June 2026

- Successfully completed intensive training in Python Full Stack Development, gaining hands-on experience in designing and developing modern web applications.
- Acquired practical knowledge of:
- Frontend: HTML5, CSS3, JavaScript, Bootstrap, React.js, jQuery
- Backend: Python, Django, Flask, Django REST Framework (DRF)
- Database: SQL
- Tools & Concepts: REST APIs, JSON, Git, API Integration
- Developed real-world projects following industry-standard development practices.

Internship – Chat GPT with Prompt Engineering(Glosaary softtech Pvt Ltd May , 2025

- Gained a strong understanding of core concepts in generative models and practiced prompt engineering for AI-based content creation.
- Worked on mini projects focused on AI-driven text and image generation. This internship provided valuable hands-on experience in using various AI tools and platforms in real-world scenarios.
- I explored and worked with tools such as **ChatGPT, Canva ,GitHub Copilot ,AWS Code Whisperer, Debugcode.AI ,Vector Shift, Gamma, Napkin AI, n8n, Portfolio, Zocker, and several others.**
- These tools enhanced my productivity, improved problem-solving efficiency, and helped me complete tasks in a more creative and effective manner.

CSP –Digital Transactions

June,2024

Description:

As part of my Communication Service Project (CSP), I organized and executed an initiative to educate people about the benefits and usage of digital transactions. The project focused on promoting secure and convenient online payment methods, particularly among individuals with limited exposure to digital finance.

EDUCATION

B.Sc.ArtificialIntelligence

- Graduate: June , 2026 , CGPA : 8.65

intermediate

- Percentage : 96% , 2021-2023

PROJECTS

KRAVIA – Training Institute Management System

Tech Stack : React.js | Django | DRF | SQL | REST APIs

Project URL: – <https://kravia-six.vercel.app/login>

- Developed a full-stack Training Institute Management System with role-based dashboards for Admin, Trainer, and Student users.
- Built modules for course management, trainer assignment, student enrollment, live classes, online exams, attendance analytics, fee management, placements, certificates, and notifications.
- Implemented study planner, assignments, recordings, resume builder, and messaging features for students.
- Developed RESTful APIs using Django REST Framework and integrated them with React.js frontend using Axios.
- Integrated AI-powered chat support and secure authentication with role-based access control.

Cloud-Based AI ERP Platform (Online Internship Project)

- **Tech Stack:** React.js, Node js, AI Integration
- Currently working on an enterprise ERP platform during internship.
- Contributing to cloud-based business management modules and AI features.
- Working on frontend-backend integration, APIs, and system functionality.

House Price Prediction using Machine Learning

- **Tech Stack:** Python, Machine Learning
- Developed an ML model to predict house prices based on input data.
- Used data preprocessing, training, and prediction techniques.

AI Chatbot

- **Tech Stack:** Python, AI
- Created an AI chatbot for automated user interaction and responses.
- Implemented basic NLP and chatbot response handling.

Mini Projects:

- Trello Clone (Project Management System) | React.js, Django
- Developed a project management application with task tracking, board management, CRUD operations, and responsive user interface using React.js and Django.

SKILLS

TECHNICAL SKILLS :

- **Programming Languages :** Python ,C ,Java
- **Programming:** Strong foundation in Python, C, and Java programming
- **Python:** Data types, OOP, functions, modules, collections, file handling, basic data analysis
- **C:** Arrays, pointers, structures, unions, file handling, debugging
- **Java:** OOP principles, inheritance, polymorphism, exception handling, collections Ability to write clean, efficient, and structured code for problem-solving
- **Web Technologies:** HTML, CSS, Bootstrap, JavaScript, Php ,Django ,Jquery , React.
- **AI S ML:** IPA, NLP, AIS , ML basics, model training, data preprocessing
- Prompt Engineering
- Business Analysis
- Requirements Gathering
- Process Documentation
- Basis of Large language Models(LLM's)

CERTIFICATIONS:

- Data Analytics with Python – NPTEL
- ArtificialIntelligence with Python – Infosys Springboard (Completed August 27, 2024)
- Introduction to Artificial Intelligence – NPTEL (Completed August 8, 2024)
- Types of AI (Completed July 29, 2024)
- Natural Language Processing – Infosys Springboard
